PROJECTS

Travel Buddy's: Frontend Development

I developed the frontend of the "Travel Buddy's" website, focusing on creating a user-friendly interface that enhances the user experience. The project involved designing and coding the following key pages using HTML and CSS:

- Login Page
- Sign-Up Page
- Home Page.

AI Models :

During my internship at Signity Solutions, I worked on several cutting-edge projects that showcased my skills in Natural Language Processing (NLP), Generative AI, and Computer Vision:

- Generative AI Integration
- Computer Vision Projects

VEHICLE SD:

Project using YOLOv8, OpenCV, Tkinter and Python. Achieved high accuracy in vehicle detection.

INTERPERSONALSKILLS

- Leadership Quality
- Teamwork
- Time management
- Good Decision-Making Power

CERTIFICATIONS

- Internship from Signity Software Solutions.
- Team Lead in College Fest @Tchnozarre
- MYSQL Course
- Python developer from Cognifyz
