Technical Skills

- **Programming Languages:** Python, Java, C
- **Data Analysis & Visualization:** Seaborn, Matplotlib, Pandas, NumPy
- **Databases:** MySQL
- **Data Structures & Algorithms:** Basic DSA with C, DSA with Java
- **Software Tools:** Microsoft Excel
- **Concepts:** Object-Oriented Programming (OOP)

Objective

A motivated Computer Science student with strong data analysis and programming skills, seeking a Data Analyst internship to apply technical abilities and gain practical experience. Eager to contribute to impactful projects.

Education

IILM University, Greater Noida
B.Tech in Computer Science and Engineering
August 2023 - August 2027 (Sem I – 9.47)

Jyoti Niketan School (Azamgarh)
High School and Intermediate (ICSE)
April 2009 - March 2023

Relevant Experience

Infosys

Training in Basic Python and C Programming

- Acquired foundational skills in Python and C programming.
- Engaged in hands-on projects to apply programming knowledge in real-world scenarios.

Project Experience **Diwali Sale Data Analysis**

- **Objective:** Analyzed Diwali sales data to identify purchasing trends.
- **Tools:** Used Pandas and NumPy for data cleaning and preprocessing.
- **Insights:** Identified peak sales periods, popular products, and demographic trends.
- **Visualization:** Created visualizations with Seaborn and Matplotlib.
- **Outcome:** Developed a report and interactive dashboard with actionable insights to improve future sales strategies.
