SUMMARY

Highly motivated Data Analyst with a strong foundation in Python, SQL, Excel, and Power BI. Seeking to leverage my analytical skills to drive data-driven decision-making in a dynamic environment.

SKILLS

- Programming Languages: Python, SQL
 - Data Manipulation Tools: Excel, Google Sheets, Pandas, NumPy
 - Data Visualization Tools: Power BI, Matplotlib, Seaborn
 - Data Analysis Techniques: Statistical Analysis, Data Cleaning, Data Transformation
 - Database Management: SQL Databases, Data Querying
-

PROJECTS

Amazon Sales Analysis

Analyzed Amazon sales data to identify top-selling products and customer trends, optimizing marketing strategies.

Key Responsibilities:

- Collected, cleaned, and analyzed sales data using Python.
- Created interactive Power BI visualizations to track sales trends and KPIs.
- Utilized Excel for data manipulation and reporting.

Technologies Used: Python, Power BI, Excel, Data Analysis, Data Visualization

Achievements:

- Identified the top 10 product categories driving sales growth.
- Improved marketing strategy by analyzing customer purchase patterns.

Indian Census Data SQL Project

Analyzed the Indian Census dataset using SQL to extract insights on demographics, literacy rates, and population trends across states and districts.

Key Responsibilities:

- Integrated demographic data (population, literacy, sex ratio) using SQL.
- Developed complex queries for aggregation, filtering, and statistical analysis.
- Cleaned and transformed raw data for accurate analysis.

Technologies Used: SQL, MySQL, Data Transformation, Data Analysis

Achievements:

- Optimized queries to identify trends in literacy rates, population growth, and sex ratios.
 - Designed data models to simplify reporting and insights extraction.
-

EDUCATION

Bachelor of Science

2023- Present

Majors: Computer Science & Data Analytics

Indian Institute Of Technology, Patna

CERTIFICATIONS

Google Cloud Data Analytics Certificate—Completed March 2025
