- Data structure
- Problem solving

Projects

- **Online test**
  The purpose of on-line test simulator is to take online test in an efficient
  manner and no time wasting for checking the paper. The main objective of
  on-line test simulator is to efficiently evaluate the candidate thoroughly
  through a fully automated system that not only saves lot of time but also
  gives fast results.
  For students they give papers according to their convenience and time and
  there is no need of using extra thing like paper, pen etc.
- **Food management system**
  The main goal of this web-based application is to minimize food wastage. Food wastage is a massive problem
  and one of the most overlooked things in today's world. A large amount of food has been thrown out by
  restaurants and function halls. This food can be distributed to the people in need through NGOs.
